Instructions for teachers

Choose one of the topics listed in the table of contents. Read over the questions for that topic. Add or change the questions according to your students' needs.

SUGGESTIONS FOR HOW TO USE THE CONVERSATION QUESTIONS

- Give one sheet of questions to each student in a group of four. Students decide who is Student A-B-C-D and take turns asking the questions.
- OR
- Create stations around the classroom and place a different handout (topic) at each station. Students spend 15 minutes at each station asking and answering the questions on the handout.
- OR
- Place several conversation topic handouts on the wall around the classroom. Count to five and ask the students to line up in front of one topic (maximum 4 students per topic). Students take turns asking and answering questions until you give the signal to move on to a different topic.

Be sure to provide functional language posters or other prompts to encourage interaction. As some of the questions may have short answers, teach students functional language necessary to maintain the conversation, e.g. *What do you think?* *Do you agree with that?* *I'm surprised by your answer.* *I agree except for ...* .

SUGGESTIONS ON HOW TO KEEP THE CONVERSATION GOING

- Ask students to brainstorm ideas and vocabulary about the topic before you give them the conversation questions handout;
- Inform students about how much time they will have for each topic;
- Establish a signal to indicate when time is almost over and a final signal when time is up;
- Use talking chips to ensure equal participation among students in a group;
- Ask students to complete a self-evaluation sheet at the end of each topic.

EVALUATION
